

Dear **Members of the Indian Shoe Federation, Synergy Partners & Members of the Indian Leather Fraternity,**

Greetings from Indian Shoe Federation!

TODAY, the Components Industry walks hand in hand with the Footwear Industry to address the global challenges and the exacting quality requirements to meet international standards as well as to increase India's share in the exports basket. The Footwear Industry has also increased its domestic sourcing levels of footwear components. This had helped the component industry to raise the level of quality of their products on par with International quality. The same holds good for technical services, machineries, testing and quality standardisation and chemicals industry.

The importance of being innovative and the need to constantly update products is a step to overcome product obsolescence and survive in the future.

The 6th edition of the exhibition of Footwear Components, Machinery, Accessories and Finished Leather is a step in this direction.

The doyens and visionaries of the Indian Leather Fraternity gave birth to this cluster-centric exposition to one of the most important cluster in the country and it is our duty to make this endeavour a success.

Be also aware that fourteen new companies are debuting at this sixth edition of Ambur OPEN with their innovations:

A Dunhill Thread	Arcot Soles	Aggu Soles	Sandeep Rubber Industries	Sri Vasavi Adhesive Tapes Pvt. Ltd.
USA Inks Pvt. Ltd.	Verana Industries	Fortune Fine Fabs (P) Ltd	Millenium Leather Foils	Indimica Impex
S.A International	Adam Associates Utility Engineers Pvt. Ltd	Habeeb Hides
